

CAPABILITY STATEMENT

CORE COMPETENCIES

Nicholson Welding Inspections LLC. specializes in welding inspections, non-destructive testing, and welding audits in accordance with ASME, AWS and client specifications.

The role of the Welding Inspector is critical to the safety and structural soundness of the vast number of buildings, vehicles, machinery, and consumer products that require strong, secure welds.

SERVICES

- Non-Destructive Testing
- Quality control audits
- Root cause and corrective action planning
- Review and approve welding procedures
- Develop, implement, or oversee quality control programs and measures

DIFFERENTIATORS

We employ extensive knowledge of welding processes, test methods, discontinuities, materials, qualifications, and standards to ensure that weldments and welding-related activities comply with all applicable quality and safety criteria.

PAST PERFORMANCE

Southern Nuclear Company: Performed welding inspections and created welding work packages for Vogtle Nuclear Unit 3 and Unit 4 for Plant Vogtle Nuclear Plant.

CH2M Hill: Performed drafting and design for roadway and bridges for Ohio Department of Transportation
